Other Sponsor

O'REILLY®

We appreciate every sponsor for helping us create a memorable event!

Why are bookmarks & parameters important?

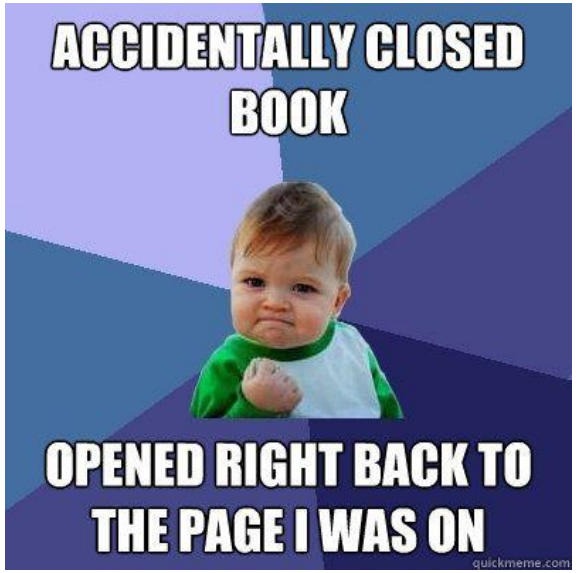

Bookmarks and field parameters:

- Maximize your report's interactivity by giving users greater flexibility
- Reduce report complexity and maintenance for developers
- When used together, they provide multiple reporting perspectives on a single page with a streamlined user experience
- No impact to report performance
    - But watch out for sub-optimal DAX / large datasets

What are bookmarks?

Bookmarks save a report’s current filters, visibility, cross-highlighted visuals, and sort order.

When you add bookmarks to a report, users can get back to that exact view by selecting it

Benefits of using bookmarks in your reports

IMPROVED NAVIGATION

SHOW/HIDE CONTENT

CUSTOMIZED VIEWS

GUIDED STORYTELLING

REDUCED REPORT CLUTTER

Bookmark Tips & Tricks

- Group relevant visuals in the Selection pane
- Group your bookmarks in the Bookmarks pane
- Use bookmark properties effectively
  - Data
  - Display
  - Current Page
  - All/Selected Visuals
- Keep accessibility in mind with Tab Order in the Selection Pane

What are field parameters?

Allow users to dynamically switch which dimensions or measures are displayed in visuals

Allow users to group measures so they can toggle displayed columns

Benefits of using field parameters

SELF-SERVICE ANALYSIS

FEWER VISUALS TO MAINTAIN

GREATER REPORT FLEXIBILITY

CONSISTENT USER EXPERIENCE

SCALABILITY
